## Safari by ATV to the Avachinsky volcano, 1 day

The group will go to the direction of the Avachinskaya tour base, and in some places the route will pass along the bed of the river Dry. Along the route the tourists will have to go through, at first sight, remote sites of alder woodland, water barriers, swampy territories, fields covered with volcanic bombs – evidence of numerous eruptions of our «calm and dearest» Avachinsky volcano. You will also get through sandstones where here and there dead and dry trees are seen. Someone called this place «valley of death», but you have to admit that, between clumsiness and immovability, there is its own gloomy beauty that one can find. Having passed all these barriers, a group will reach the foot of the volcano where it will stop and make a camp. During the stay a delicious lunch will be cooked and travelers will have a chance to have a rest after a long ride, to admire marvelous views from the camp. With experienced guides you will explore the nearest sights (including the mountain Camel), and will get acquainted with native flora and fauna.
