Excursion to the waterfall Viluchinsky and to Verhne-Paratunskiye hot springs, 1 day

The waterfall Viluchinsky – the most beautiful waterfall of approximately 60 m in height formed from thawing of a glacier. Falling vertically from the rock, which is adjoined to one of the slopes of the Viluchinsky volcano, it leaves an indelible impression and blows one's mind with its powerful beauty.

The Verhne-paratunskiye hot springs are situated on the slope of the Goryachaya (Hot) hill on the height of 70 meters above the bottom of the Paratunka river valley, where the jets of hot thermal water break through the mountain's cracks. Flowing into bigger creeks, they stream down the rocky slopes forming warm waterfalls and natural hot baths. The temperature of the water is 39-45 C°.

The period of the route: July – September

Kind of the route: by car and on foot

Duration: 1 day

Meeting of a group: Bus station (10 km.)

The meeting time: 09:45 a.m.
