## Helicopter excursion to the Valley of Geysers – the caldera of the volcano Uzon – the river Zhupanov, 5-6 hrs

The worldwide known Valley of Geysers is located in the centre of the Kronozky Nature Reserve in the deep mountain canyon. This name was given to the valley due to 40 geysers and numerous hot springs. Each geyser is unique, they all have their own names and special features. The helicopter route to the Valley of Geysers goes above picturesque mountain ridges, narrow glades, tundra, volcanoes, rivers, and lakes. You can observe the eruption of the volcano Karymsky and admire the beauty of turquoise crater lake of the volcano Maly Semyachik. The nature of the valley is so extraterrestrial that it seems that such place cannot exist on the Earth, and that you are somewhere on an unknown faraway planet.

**Period of the tour:** all the year round

**Difficulty:** easy

**Duration:** 5-6 hours
