## Jeep tour to the massif of the volcano Vachkazhets, 1 day

The massif of the volcano Vachkazhets, the highest point of which is 1556m above the sea-level (the mountain Vachkazhets), is located 80 km to the west from Petropavlovsk-Kamchatsky. This massif and its surroundings is one of the most beautiful places of Kamchatka pristine nature. In ancient times Vachkazhets used to be a whole volcano but during the disastrous eruption it collapsed and it was formed in three main parts: the mountain letnyaya Poperechnaya (1417 m), the mountain Vachkazhtsy (1500 m). and the very Vachkazhets.

On the territory of the mount.Letnyaya Poperechnaya there are still two big volcanic circuses which are, evidently, the remains of the whole crater of the ancient volcano.

The uniqueness of this place is in its universality: the region is as good as for trekking, birds sighting, flora observation and for ski tourism in winter.

**The period of the route:** July - September

**Kind of the route:** by car and on foot

**Duration:** 1 day

**The place of the beginning and the end of the route:** Bus station (10km.)
